OBJECTIVE

Recent civil engineering graduate (class of 2026) seeking a **site engineer trainee** or **technical-office engineer** role. Strong coursework foundation in structural design and construction materials, with working knowledge of **AutoCAD, ETABS, and quantity takeoff**; Autodesk AutoCAD certified.

EDUCATION

B.Sc. Civil Engineering — Cairo University, Cairo (2021–2026)

Graduation project grade: **Excellent**

Key coursework: Structural Analysis · Reinforced Concrete Design · Steel Design · Soil Mechanics & Foundations · Construction Management · Surveying · Hydraulics · Building Materials & Testing

ACADEMIC PROJECTS

Graduation Project — Structural Design — 2026

Design of a 6-story reinforced-concrete residential building (Cairo University)

- Modeled the gravity and lateral load-resisting system in **ETABS**; verified results with manual checks.
- Designed slabs, beams, columns, and isolated footings per the **Egyptian code ECP 203**.
- Produced **12 AutoCAD sheets**: general arrangement, column schedule, and reinforcement details.
- Prepared a preliminary **quantity takeoff** (concrete and reinforcement) in Excel.

Steel Design Course Project — 2025

Roof truss system for a 24 m-span warehouse (course team project)

- Designed truss members and bolted connections under assigned load cases; delivered full calculation notes and drawings.

Surveying Field Project — 2024

One-week field camp — Cairo University surveying course

- Ran a closed traverse with a **total station**, leveled and contoured the site, and produced a topographic map with adjustment computations.

SUMMER TRAINING

Site Trainee — Al-Andalus Contracting Co., Cairo — Jul – Aug 2025

6-week on-site training, 4-story residential project

- Assisted the site engineer in **rebar and formwork inspections** before concreting.
- Prepared concrete and blockwork **quantity takeoff** sheets in Excel.
- Attended concrete pours and slump/cube testing; recorded daily site reports.

ACTIVITIES

- Events committee member, Faculty of Engineering Students' Union — helped organize 2 faculty events.
- Volunteer guide, university open day (2023).
